

Care & Maintenance

Mirror & Vinyl Back Glass

General Cleaning

- ≠ Clean using a soft wet cloth
- ≠ Use warm water only
- ≠ Clean the full panel, spot cleaning can often appear obvious when dry
- ≠ Avoid the use of acid or alkaline cleaners
- ≠ Avoid the use of cleaning agents containing ammonia or vinegar
- ≠ Buff dry to ensure an even appearance
- ≠ For best results, use a clean white rag
- ≠ For vinyl back products, ensure no moisture is left trapped between the vinyl and the glass

Stain Removal

- ≠ Use methylated spirits or turpentine for stubborn marks on the surface of the glass (not the vinyl backing)
- ≠ Use clean warm water for a final clean
- ≠ Clean the full panel, spot cleaning can often appear obvious when dry
- ≠ Remove paint immediately whilst still wet
