

# Care & Maintenance

---

## Patterned Glass

### General Cleaning

- ≠ Clean using a soft wet cloth
- ≠ Use warm soapy water
- ≠ Clean the full panel, spot cleaning can often appear obvious when dry
- ≠ Buff dry to ensure an even appearance
- ≠ Avoid the use of acid or alkaline cleaners
- ≠ For best results, use a clean white rag
- ≠ Be sure to remove any items of jewellery including watches, that may come into contact with the glass during cleaning
