

Care & Maintenance

Roller Paint Glass

General Cleaning

- ≧ Clean using a soft wet cloth
- ≧ Use warm soapy water
- ≧ Clean the full panel, spot cleaning can often appear obvious when dry
- ≧ Buff dry to ensure an even appearance
- ≧ Avoid the use of acid or alkaline cleaners
- ≧ For best results, use a clean white rag
- ≧ A lightly abrasive scouring pad can be used on stubborn stains

About the product...

Roller painted glass is produced by applying a layer of ceramic paint to cut to size glass. These panels then undergo the tempering process, which essentially bakes the paint into the glass. This creates a durable finish able to withstand common damages such as staining.
